PROFESSIONAL SUMMARY

Backend Developer with hands-on experience building secure, scalable web applications and REST APIs using Python, Django, Django REST Framework, and PostgreSQL. Experienced in API design and documentation (Swagger/OpenAPI, Postman), JWT authentication, role-based access control, database design, and Docker. Built multiple full-stack projects with React and Tailwind CSS, including e-commerce, learning, and job platforms. Delivered freelance web applications and completed two internships at the Information Technology Institute (ITI).

TECHNICAL SKILLS

- **Programming Languages:** Python, JavaScript, TypeScript, HTML5, CSS3
- **Backend:** Django, Django REST Framework, FastAPI, Node.js, Express.js, REST API Development, JWT Authentication, Role-Based Access Control
- **API Practices:** RESTful API Design, API Documentation, Swagger / OpenAPI, Postman (API Testing and Collections), Request Validation, Error Handling
- **Frontend:** React.js, Next.js, Tailwind CSS, Bootstrap, jQuery
- **Databases:** PostgreSQL, MongoDB, Database Design, Query Optimization
- **Tools and DevOps:** Git, GitHub, Docker, Linux (Ubuntu), Apache, CI/CD, Postman, Redis, Celery
- **Other:** Stripe Payment Integration, Responsive Web Design, Code Reviews, Debugging

PROFESSIONAL EXPERIENCE

Freelance Software Developer

Self-Employed, Egypt

- **Arabia Webstore:** built an e-commerce platform with Django REST Framework, PostgreSQL, and React.js, including JWT authentication, Stripe payment integration, shopping cart, checkout flow, and an admin dashboard for products and orders.
- **AI Penetration System:** developed an AI-assisted security testing platform in Python with a Django/FastAPI API layer, vulnerability analysis, report generation, a workflow dashboard, and role-based access control.
- **TechMate Platform:** built a collaborative tech community platform with Django REST Framework, PostgreSQL, and React.js, including user profiles, discussion forums, project collaboration tools, and role-based access control.
- **Smart Learning Academy:** developed an online learning platform with Django REST Framework, PostgreSQL, and React.js, including course management, student progress tracking, real-time notifications, and JWT authentication.
- **MOMO CLUB digital menu (momoclubmenu.vercel.app):** built an interactive Arabic restaurant menu with Next.js, deployed on Vercel.
- **LEQAA Cafe digital menu (leqaacafe-menu.mahmoudwafi33.workers.dev):** built a responsive restaurant and cafe menu with Next.js, deployed on Cloudflare Workers.
- **Sidi Group landing page (sidigroup.site):** built the corporate website for a multi-industry group with Next.js (App Router, Server Components), React 19, TypeScript, and Tailwind CSS, including lazy-loaded video and SEO-optimized metadata.

Full Stack Developer Intern

Information Technology Institute (ITI), New Capital, Cairo, Egypt | May 2024 - September 2024

- Developed and maintained web applications using Python, Django, and JavaScript frameworks.
- Collaborated with cross-functional teams to design RESTful APIs and improve application performance.
- Implemented secure authentication and data validation to strengthen application security.

Full Stack Developer Intern

Information Technology Institute (ITI), Mansoura, Egypt | July 2021 - September 2021

- Built responsive web interfaces using HTML, CSS, Bootstrap, and JavaScript.
- Participated in database design and management using PostgreSQL.
- Contributed to code reviews and debugging to ensure high-quality deliverables.

PROJECTS

ITI Coffee
Technologies: Django REST Framework, PostgreSQL, React.js, Tailwind CSS, JWT
- Developed a full-stack coffee ordering system with a Django REST API and a React frontend.
- Implemented JWT authentication and a responsive user interface.

Library Management System
Technologies: Django, PostgreSQL, HTML, CSS, JavaScript, jQuery
- Created a system to manage book inventory, user registration, and borrowing records with due-date alerts.
- Implemented role-based access control for Admin, Librarian, and Member roles.

Job Board
Technologies: Django, Django REST Framework, PostgreSQL, JavaScript
- Built a job portal with job search, application submission, user profiles, and an admin panel for job postings.

Online Book Store
Technologies: Node.js, Express.js, MongoDB, React.js, Tailwind CSS, JWT
- Developed a full-stack bookstore with a RESTful API, book search, cart and order handling, and an admin panel.

EDUCATION

Bachelor of Science in Computer Science and Information (Very Good)
Kafr El-Sheikh University, Kafr El-Sheikh, Egypt | *September 2018 - July 2022*

LANGUAGES

- **Arabic:** Native
- **English:** Professional Proficiency
